

Mastering Your Diabetes at the Diabetes Research Institute

Offered 4 times a year, this 3-day course is our most intensive program. It is designed for persons with diabetes who inject insulin to control their blood sugars.

- Achieve greater control while at the same time achieving greater freedom through high-level knowledge
- Offered 3 times a year
 - 2 adult
 - 1 pediatric
- Highly interactive program
- Enhance your ability to “think beyond the rules” in order achieve target blood sugars
- Learn to use your pump and/or CGM more effectively

DIABETES, ON YOUR OWN: A GUIDE TO SURVIVAL IN COLLEGE AND BEYOND

Learn how to “think like a pancreas” by going “beyond the rules” so that eating out, navigating parties, and juggling your ever-changing school and work schedules will not upset the balance with your diabetes management.

- Offered once a year
- Designed for young adults, ages 17 to 25, who are preparing to live away from home
- Help “hone” your diabetes self-management skills to become more independent and mindful
- Learn how to prevent diabetic ketoacidosis (DKA) and severe hypoglycemia while starting your new adventure
- Become more secure in your own judgements, including knowing when to ask your parents, friends, and/or healthcare professionals for assistance

Space is limited to 12 participants. If you would like more information or to register, please call Dina Bardales at 305-243-3696.
